

BRITAIN IS DIVIDED AS CABINET MEETS TO CONSIDER DEBT

Ambassador Harvey May Be Asked For Advice On U. S. Stand.

ENVOY WILL REPORT ON NEGOTIATIONS

Expect Cabinet To Have Difficult Time In Reaching Decision.

London, Jan. 29.—George Harvey, American ambassador to England, who was recalled to report to the United States' government upon European affairs, arrived from Washington today and announced that he is ready to advise upon the Anglo-American debt negotiation if his services are desired.

Ambassador Harvey refused to discuss the British debt issue in detail, nor would he disclose what part he will play in future negotiations.

"I am ready to advise if called upon," he said.

The ambassador was questioned about the statement he was reported to have made that the "United States is damned well out of Europe."

"Oh, I cannot say anything about that," he replied but gave the indication that he had been correctly quoted.

Harvey was fulsome in his praise of Stanley Baldwin, chancellor of the British exchequer, who headed the British debt funding mission to Washington.

"Mr. Baldwin made a good impression in the United States," said the ambassador. "A better man could not have been chosen for the work."

He appealed to American sentiments as no other English statesmen has done since Lord Bryce. He understood American sentiment. Nothing but good can result from the Anglo-American negotiations as they were handled by the British chancellor of the exchequer."

Harvey's arrival again brought the British debt issue to the front. The British cabinet will meet tomorrow to hear a detailed report on the Washington negotiations from Chancellor Baldwin. It is likely Harvey's views will be sought by cabinet members in order to balance the against the opinions expressed by the British official.

It is understood that when the cabinet meets tomorrow to consider the debt question, a group of members will propose that Britain accept the American terms for a 3 per cent interest rate during the first ten years, providing the United States will agree to reconsider and enter into new negotiations at the end of the ten-year period.

There are indications that the cabinet is going to have a difficult time reaching a decision. The press is divided, some urging rejection, others acceptance of the American terms.

Those who counsel acceptance point out that Britain could save money by adopting the American conditions with their 3 per cent interest instead of continuing to pay 5 per cent, the temporary rate. There is another consideration. Certain members of the government believe that acceptance would cement the friendly relations between the two nations and perhaps assist Britain in persuading the United States to insist on settling the European problems.

The Evening Standard supports the attitude of Chancellor Baldwin, who wants the terms accepted. This paper believes that the terms are the best obtainable. It holds that American press criticism is due to super-sensitivity." The newspaper added.

"But while the terms are best from a commercial standpoint they are

MINISTER SCORES CHURCH KNOCKERS

Rev. M. M. Coffin Tells Of Power And Purpose Of Satan's Work.

Rev. M. M. Coffin, pastor of the First Friends church, sounded a warning against the false gospels of the age Sunday evening when he preached a forcible sermon on "What the Bible Says About Satan." He spoke especially of Christian Science, Russellism and Spiritualism, and brought out the thought that false religion could be distinguished from the true because it leaves out the Atonement of Jesus Christ and vital truths, which the Bible teaches.

Rev. Mr. Coffin spoke especially of the personality, power and purpose of Satan. He emphasized that Satan's purpose was to destroy the bride of the Holy Spirit is preparing for Jesus Christ and that one of his traps was to get people into false worship.

That Jesus Christ in his death on the cross for the sins of the world, conquered Satan, was pointed out by the speaker.

This is the second of a series of sermons that Rev. Mr. Coffin is preaching on "What the Bible Says." Next Sunday evening his subject will be "What the Bible Says About Hell." The sermon will be preceded by a 15 minute song service by Rev. Mrs. Coffin.

FLAMES DESTROY THREE BUILDINGS AT E. LIVERPOOL

Early Morning Fire Causes \$30,000 Damage; Family Overcome By Smoke.

East Liverpool, Jan. 29.—Fire of unknown origin completely destroyed three downtown business establishments and an adjoining residence here early this morning, causing damage estimated at \$30,000.

Two families were driven to the streets in their night clothing by the flames which destroyed their homes.

Starting at 1 o'clock, supposedly in the rear of the E. S. Donahay meat market at 635 St. Clair ave., the flames spread to the J. H. Smith Home bakery, next door, and the Werner meat market, on the other side, owned by Joseph Werner. Above the Smith establishment the Smith family, comprising two adults and four children, were overcome by smoke before they were rescued. The Werner family, living in a two-story residence adjoining the meat market narrowly escaped injury in their escape.

Nothing as to the fire's origin could be learned.

The flames at one time soared fully 25 feet into the air, it was reported, and could be seen for blocks in all directions. Most of the fire was in the rear, where the walls and roofs tumbled first. Shortly before 3 o'clock all that remained of the Donahay market was the front wall. The rear end of the Smith bakery also was gone. The ruins were flooded with water and the Weaver brick welding shop, alongside the Donahay place and in the rear of the one-story Werner meat market, while not seriously harmed by the flames, was seriously damaged by water.

The points are:

1—Be generous to your wife according to your means.

2—Do not interfere with a woman in the management of purely domestic affairs.

3—Be cheerful, even though you find it hard sometimes.

4—Be considerate for the average woman is just a bundle of nerves.

5—Make love to your wife; continue to be her sweetheart.

6—Don't scold or find fault.

7—Establish your own home, if possible, away from your wife's and your own families.

8—Don't keep any star-boarders.

9—Cultivate neatness and personal cleanliness.

10—Be kind and just to your children.

Fog Fans in London Hotels.

With the coming of the first of the winter fog in London, which often make it impossible to see across the street, the problem of how to minimize this necessary, or unavoidable, evil in the great public rooms of hotels has exercised the ingenuity of the managers. Each hotel now deals with the problem in its own way, and with varying success.

The Savoy hotel now claims to have the finest and swiftest system in the world for dispelling the fog. One hundred and fifty forced-draught, high-speed fans have been installed to be used during the winter to pump out any quantity of fog creeping in.

Birds Make Work for Plumbers.

A plumber working on a stopped-up pipe to the kitchen sink at the residence of J. R. Dicks, Plant City, Fla., discovered that the pipe had been clogged by pecan nuts dropped in the top of a vent pipe by birds. The birds gathered the nuts from a nearby pecan tree and thought they were storing them in the hole, while the nuts dropped down to the bottom of the pipe and clogged the drain from the kitchen sink, causing it to overflow. A quart of nuts was removed from the pipe.

SHARP INTEREST IN COMMUNISTIC DECLARATIONS OF THE WORKERS' PARTY.

RUSSIAN AGENTS ARE BUSY

Dangerous Propaganda Carried On By Radicals Who Have Visited the Soviet Republic—Insidious Work Through Welfare Organizations.

By EDWARD B. CLARK

Washington.—Washington has read with keen eye and sharp interest the proceedings of the convention of the so-called Workers' party of America, held in New York city. Why the keen eyed and sharpened interest? Here is the answer: At the close of its convention the Workers' party sent a message to the Communist International at Moscow saying that the party had "devoted itself to the constructive work of building a powerful revolution in America."

These words were added to this: "We go forward with new strength and enthusiasm. Long live Communism and the International."

Washington knows something about the work of the agents of communism in America, and it is probable that other cities of the country know it just as well. Washington, however, is charged with the work through certain official agencies, of checking activities directed to the undermining of the democratic institutions of this country. Washington's interest must necessarily therefore be positive.

The blunt truth is that under camouflage of benevolence Russian agents are working day and night in the country, and the wonder is if some of the good men and women—they are mostly women—who are working in behalf of the communistic theories and practices of Lenin and Trotsky, know what they are doing. Some of them do know, and are doing what they are with eyes open and with the definite purpose of accomplishing that which they have determined upon.

Agents of Communism.

A good many Americans who are what they themselves like to call liberal have been in Russia and have come back to tell their tales. Nearly all of the prominent ones in the list of visitors, the ones who know how to anoint their tongues with the perfumed charm of seductive argument, were communists when they went to Russia, and communists when they came back. Some of them are orators, some of them are merely florists. They would be harmless were it not for the fact that the oratorical and unflattering think that sounding periods and posies of prose contain irrefutable facts, and that if the world is to be saved some American Lenin and some American Trotsky must save it.

Those who went to Russia and have come back to talk their fellow American citizens into becoming communistic crusaders visited Lenin and Trotsky only. Listened to their pronouncements and looked on the pictures of conditions which were drawn to order.

There have been a few visitors to Russia to return to America with the true tale of things, but these visitors did not get their training in certain social centers of the United States where oratory of a certain kind is taught along with doctrines that destruction is the only means to make construction possible. Construction, as it is taught in some of these social centers is communism.

Danger in Mary Clubs.

Something has been said before this in Washington dispatches about what one of the same journals devoted to the interests of American women has quoted about interlocking directorates. Virtually every organization, governmental or private, which is intended to do something for the general welfare of the citizens of this country has in its members men and women who believe that with communism established in the United States the woes of the country can be whistled away.

Many of the men and women who hold government or private welfare organization jobs hold membership in clubs composed of ordinary citizens and citizens. They get on the directing boards of these organizations and if they are active workers they can do pretty much as they choose, while the sleepy members think that as long as somebody will work all is well. The result is that propaganda becomes effective and congress at times is led to believe that the various organizations which are petitioning for this and that frantic and fantastic thing represent the thoughts of all the men and women of the various communities.

This sort of thing goes on throughout the rest of the United States, but it is more deadly here in Washington, because here its influence is immediately felt.

Telephones in Geneva.

Geneva, the headquarters of the League of Nations, was a good selection from the telephone standpoint. With a population of about 140,000, it has approximately 14,000 telephones, or a development of ten telephones for every 100 people, which is very considerably higher than the European average for the cities of that size, though not up to the average in the United States.

COUNTY FARMERS AID IN CAMPAIGN

Columbiana County Now Seventh In List Of Leaders.

The College of Agriculture at the Ohio State university today announced the ten counties of the state who stand highest in a national campaign to replace mongrel sires with purebred animals. In this effort, which is known as the Purebred Sires Enrollment Campaign, Ohio was the leading state in the Union at the last report.

The five leading Ohio counties are Greene, where 333 farmers have signed pledges to have on their farms no more scrub bulls, stallions, hours, rams, nor any form of half-breed livestock; Hardin, with 237 farms enrolled; Hancock, with 156; Belmont, with 146; and Guernsey, with 146.

The next five counties are: Miami 140; Columbiana, 119; Coshocton, 89; Washington, 81; and Wayne, 74. In all, 69 Ohio counties are engaging in the campaign.

It is thought that Greene county's enrollment will prove to be the highest of any single county in the United States, but this will not definitely be known until the United States Department of Agriculture at Washington issues its quarterly summary of state and county standings. This report is now due.

Engagement Of Pola To Chaplin Affirmed

Delmonte, Cal., Jan. 29.—Charles Chaplin and Pola Negri, motion picture stars, announced their engagement at Pebble Beach Lodge, near here, Sunday. They refused to say when they would be married.

Chaplin came from Hollywood on a morning train to visit Miss Negri. He returned home later. When the actor's train arrived Chaplin did not get off at Delmonte, and rumor spread that he had come in disguise. It developed he had taken an automobile at a nearby point and motored to Pebble Beach. Later, to assembled newspaper men, Mr. Chaplin said:

"Yes, we are engaged." Miss Negri said so too, and that ended the interview. The actress will remain at Pebble Beach several days and then return to Hollywood.

Can't Stop Joint-Ease

"You can't stop people from buying Joint-Ease for sore throat and cold in chest," writes one of our druggist friends. "They say it's the best ever."

We know that, of course, but please remember that Joint-Ease is for stiff, swollen, painful joints, whether rheumatic or not, and its tremendous sale for that purpose proves that it is the one joint remedy that gets the most satisfying results.

A tube costs 60 cents at drugists everywhere. Just rub it on and in a few seconds it disappears completely under the skin, and relief follows instantly.

BRITAIN IS DIVIDED

(Continued from first page.)
scarcely congruous with American propaganda for remitting allied claims upon Germany. Many Britons are unable to banish the reflection that, but for the deference paid to American idealism in the peace conference, the question of our debt to the United States today would be of little importance."

The Tory newspaper Morning Post urged payment saying:

"It is neither just nor reasonable to regard war debts as ordinary commercial obligations, but we are too proud to default."

The Westminster Gazette recommended acceptance to prove that Great Britain is not a thrifless nation.

Ambassador Harvey appeared to be in the best of health upon his arrival. He said he had a good voyage and felt fit to take up his duties where he left off last month.

WHEN KIDNEYS HURT
DRINK MORE WATER

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues close and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.

YOUTHFUL ROBBERS
CONTINUE WORK

East Liverpool, Jan. 29.—East Liverpool is being terrorized by a band of youthful thieves of late, four more robberies being reported to police during the week end.

The business establishment of Mayor Joseph S. Wilson was visited Saturday night and about \$1 in change taken. None of the stock in the store had been molested, police say. Entrance was gained by prying off a shutter on a window in the rear of the store.

A small box used in collecting money for charitable purposes was broken into at the St. Stephen's Episcopal church, of which Rev. L. C. Difford, former Salem minister, is rector. A small amount of money in the box was taken.

Two other places visited by the robbers included a cobbling shop and a private home.

Police believe the robberies to be the work of a youthful band styling themselves "K. K. K. Jrs."

Kersh, city clerk of Tuscaloosa, died at an early hour Sunday morning from psychic effects of excitement following an initiation at the Sigma Nu fraternity house, on the campus of the University of Alabama here, according to a verdict of a coroner's jury.

The young man, with 16 others, was initiated into the fraternity, and a few minutes after the ceremonies ended he suddenly died, according to authorities.

SALEM HI FLOOR TEAMS WIN FROM WELLSVILLE

Displaying a whirlwind of speed in the closing minutes of their game Saturday night the Salem High basketeers earned a brilliant victory in one of the best played games ever staged in the local scholastic gym. The end of the contest found the Red and Black on the long end of a 35-34 score.

The Salem girls defeated the Wellsville sextet in an easy manner, 26 to 16.

The boys' game was a thriller from the beginning of the second quarter until the final whistle blew. The locals started out with a ragged exhibition of basketball and Wellsville soon took the lead. Sheehan started the game at forward but was ill when he donned his uniform. He was replaced during the first period and Yengling replaced him.

The rest between periods seemed to have a good effect for "Shiny" came back with a vengeance and scored four field goals in rapid succession from the center of the floor.

Salem Comes Back

Wellsville led at the end of the first period, 12-11, and at one time during the third quarter had a nine-point lead, 20-11, then the tide turned and the Red and Black machine began to hit on all five cylinders and a whirlwind exhibition of the floor game gave them a one point victory. During this period the locals performed like a well trained machine and literally rained field goals through the basket.

McKeown led the Red and Black in field goals with six, followed by Sheehan with five and Houser with four. Sartick contributed one. McSweeney was the high performer for the visitors, dropping nine field goals through the net.

The Salem forwards resorted to long shots and made but three in all and one short shot during the entire period.

Girls' Team Work Good

"Danny" Willaman was "on." That spelled defeat for the Wellsville ladies. Willaman made 24 of her team's total of 26 points with 10 field goals and four foul goals. Tinsman connected with the basket for the other points.

The team work of the Salem girls was too much for the Wellsville maidens and the Red and Black romped home with the victory in an easy manner. Close guarding of Harris, Whinnery and Harding kept the Wellsville field goals reduced to four. The work of Kent and Calkins was an important cog in the victory. Reed and Todd looked best for the visitors.

THINGS TO KNOW ABOUT OUR SERVICE

How to Get Electricity Turned On

Whenever you change your residence—please notify us immediately. To delay this notification delays your application for service, and prevents us from serving you promptly. A letter, a phone call, or a call in person will receive our immediate attention. Bear in mind that at least one day must elapse before you get electric service. Our various departments must be informed of the change, new records prepared—and it all takes time. But it saves time in the end.

We want to render the best, most efficient service possible. Will you help us?

Make applications for electrical service to the "Application Desk"—by letter, phone or in person.

Everything Points to the Greatest Spring Demand for Ford Products in Company's History

1,202,517 Ford Cars and Trucks were delivered to retail purchasers in the United States alone during 1922—

Actual deliveries for last month greatly exceeded any previous December in the history of the Ford Motor Company—

It was the ninth consecutive month in which more than 100,000 Ford Cars and Trucks were retailed—keeping the Ford Plants working at capacity to meet dealers' requirements—

In many parts of the country dealers are already finding it necessary to specify later delivery dates on certain types

We have given you these facts as they actually exist so that if you are planning to purchase a Ford Car, Truck or Tractor for use this Spring or Summer, you can list your order now and take advantage of our dealer's first opportunity to make delivery.

because there are no reserve stocks to draw from—

Commercial users, business houses and farmers, anticipating their future requirements, are placing orders and taking delivery of Ford Cars, Trucks and Fordson Tractors to insure against delay—

Everything points to the biggest shortage of Ford Products this Spring that has ever existed—

The only way you can be sure of obtaining delivery of a Ford Car, Truck or Fordson Tractor is to list your order immediately—

Spring blossoms lent charm and beauty to house and tables when Mrs. Willis Corl entertained 15 members of the "500" club at the annual dinner Thursday at her home on Chestnut st. Skin Ablaze with Eczema Constant Itching Almost Unbearable

We know there is one thing that stops eczema, and that is more red-blood-cell S. S. builds them by the million! You can increase your red-blood cells to the point where it is practically impossible for eczema to exist. We know that as

blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? You must just like you have never thought about it! Skin eruptions, eczema with all its fiery, skin-digging torture and its scarring, unreleasable itching, pimples, blackheads and boils, they all pack up and go when the tide of blood-cells begins to roll in! Blood-cells are the fighting-giants of nature! S. S. builds them by the million! It has been doing so since 1921! S. S. is one of the greatest blood-cell builders, blood-cleaners and body-builders known to us mortals! When you put these facts together, then to continue to have eczema and skin eruptions looks more like a sin than a disease. Mrs. Arthur N. Smith, Pearl St., Newark, Ohio, writes:

"My little girl had a very bad case of eczema. She began taking S. S. and is well now. I thank you very much. I tell my friends what a good medicine it is. I cannot talk too much about it, for I know it is O. K."

This is your opportunity, S. S. contains only vegetable medicinal ingredients. Because S. S. does build red-blood-cells, it relieves rheumatism, builds firm flesh, fills our hollow cheeks, beautifies the complexion, builds you up when you are run-down. S. S. is sold at all drug stores, in two sizes. The larger size bottle is the more economical.

C. M. Bixler of Conneaut, who visited here early in the week, has returned to his home.
